Dr. Yali Zhang
National Center for International Collaboration Research on Precision Agricultural Aviation
Pesticides Spraying Technology
South China Agricultural University
Guangzhou 510642
P.R.China

Dear Dr. Zhang,

I am pleased to invite you as a short-term visiting research scholar to my lab at Chonnam National University in South Korea. Your visit, scheduled for April 17-19, 2024, will provide an excellent opportunity to strengthen our existing collaboration in the fields of sensors, robotics, unmanned aerial vehicles (UAVs), and automation with applications in agriculture.

During your visit, I look forward to showcasing our current projects, which include advancements in computer vision, robotics, and artificial intelligence tailored for agricultural applications. Chonnam, being the largest fruit and vegetable producing province in South Korea, boasts a diverse range of crops, making it an ideal location for conducting ag-tech research.

I am eagerly anticipating your visit and the collaborative opportunities it will bring.

Sincerely,

A handwritten signature in cursive script that reads "Kyeonghwan Lee".

Kyeong-Hwan Lee, Ph.D.
Director,
AI Agri-Tech Research Center
Professor,
Dept. of Convergence Biosystems Engineering
